

### List of Unpublished Talks

- II. Time-Domain Semiclassical Approach to Dynamics, Spectra and Eigenstates  
Eric J. HELLER, *Department of Physics, Harvard University, Cambridge MA 02138 USA*  
Exactly Computable Monodromy Matrices in Hamiltonian Systems  
Haruo YOSHIDA, *National Observatory, Mitaka, Tokyo 181, Japan*
- III. Spectroscopy of Vibrational Chaos in Highly Excited Polyatomic Molecules  
Soji TSUCHIYA, *Japan Women's University, Bunkyo, Tokyo 112, Japan*
- IV. Level Statistics and Semiclassical Quantization in a Pseudo-Integrable System  
Akira SHUDO, *Institute for Molecular Sciences, Okazaki, Aichi 444, Japan*
- V. Science and Engineering for Manipulating Atoms by Scanning Tunneling Microscope  
Masakazu AONO, *The Institute of Physical and Chemical Research, Wako, Saitama 351-01, Japan*
